pedagogies - Software engineering
teaching

Team and project management -
Multi-site, multicultural, multilingual
environments

Philippe Duperray

International relationship officer at CESI Ecole d'Ingénieurs - Ibero
America area

Nouvelle-Aquitaine, France

Résumé

Working at CESI Ecole d'Ingénieurs, I am pleased to teach software engineering technologies, to contribute to the implementation of active learning pedagogies in our classes and to promote student international mobility. My objectives are to help our students to be confident in their skills (technical and soft ones) and then be well prepared to become performing engineers in the demanding IT industry.
